- ✓ gain buy in for change

Learn how great leaders and coaches achieve peak performance

Join other local leaders for a challenging, interactive presentation on how to successfully coach your work team, or others in your sphere of influence, to achieve results. Based upon principles of neuroscience and years of executive coaching, award-winning author and president of Alpine Link Mike Hawkins shares his proven methodology to help people overcome obstacles and reach their peak potential.

Mike's experience spans multiple industries, including information technology, financial services, manufacturing, construction, telecommunications, utilities, and energy. He has held positions in engineering, sales, and global general management.
